## SEEN, HEARD AND TOLD

By W. W. WHITAKER
When he feels like it.

Pickings are getting pretty slim this week in the rat race. Just three patriots, so far. Brother Lollar from Kilmichael running for Floater was advised to get plenty of chewing gum and nickle pieces of ice, like Jim Bull once did in his race thru Montgomery County. Then there is Fred Rounsaville running for Supervisor in Beat Three. McHenry Allison has announced for sheriff, as expected.

Proby aint said yes or no yet, while Doug Anderson is still holding to his government work. Vernon Carver is worried about what it costs to announce and many others are still considering, including Festus Mullen.

"Spot" Taylor was found dead in his shack located east of Bogue on the old "Rim and Bow" property Monday morning when Ben McElwrath went out to find out about him. Spot was about 78 and a brother of the late R. L. Lee Taylor. Coroner Ward Alexander, who was called in, reported that Mr. Taylor had apparently died of natural causes and had been dead several days. Once a cotton buyer in Grenada, he has lived in this vicinity as a sort of hermit. Nobody ever bothered him, nor did he bother anybody else.

Here's some news we got left- handed; that Grenada Lake will be dedicated on June 9th. The Star got the news from a paper 100 miles away, while we got it from the Star. We are sorry that is all we know.

Thru Boyd Campbell, Grenada has at long last been honored by the U. S. Chamber of Commerce. Boyd has been elected President of the national chamber. He was once head of our school here and married a Grenada girl, Miss Louise Horton. He has made a notable success in Jackson.

Scratching for headlines, a la Sway ze; a regular army of workmen is working on the huge McQuay factory west of Tie Plant; the Ross-Andrews-Vance sub-division nearby is going right up; the elementary school grounds have received a handsome coat of new grass.

I dont know whose likeness the Confederate monument represents but I do remember that the late Captain Joe Slack asked that it be faced toward "old Roane's Store", presumably to "watch Old Roane", the late Judge Roane that is.

I think there is something real sweet about the loyalty to each other of the five Moore "children" - "Misses" Elizabeth, Ethel, Norma and Modie and Dr. Moore Moore.

Coroner Ward Alexander reports that there has been no big raise in the pay of the Coroner. That being the case, we will not charge coroners for announcing them. Ward said he got pay only when he found a "dead 'un". Our charge therefore will be exactly nothing ($0.00).

"Christmas" is about over for Grimes and me, as only a few more patriots are to announce for office, but it has been a grand "Christmas" while it lasted.

I dont know positively whether he likes me or not, but this is what I heard him say: "If we did not have a Whyte Whitaker here in Grenada to keep things stirred up, we would have to order one from Sears Roebuck."

Have you seen the tall Negro with a goatee who is ever to be seen on the streets with a long fishing pole in his hand every time. I have never seen him fishing, but he seems to be ready to fish every time. If he is crazy he is no crazier than most folks in Grenada.

I was scared that B. Feitus had left, but Tommie Darras assured me that she ate at his joint every noon. B. has become a regular fixture in Grenada and it is going to seem strange not to have her here. B is not only smart and cute, but awful easy on tired eyes.

Question: "What makes the city manager form of government work in Grenada?". Answer: "A suitable city manager."

Miss Lizzie Horn came in and renewed for her old friend, Miss Addie Barrow, now back home in Franklin, Kentucky.

I neglected to mention last week that Rice Pressgrove, now running for Chancery Clerk, is already "telephone-broke" as he has been working around five telephones for about ten years, down at Oliver-Lilly.

According to a window card displayed in our window, Holy Week Revival Services will be at the Methodist Church next week, beginning Sunday. Rev. Thomas A. Carruth of Nashville will do the preaching both morning and evening, while the Millsaps sacred singers will be there next Sunday morning.

It is just like Christmas again for our colored friends who fish more, if anything, than do the white folks.

## Other Candidates Enter Rat Race

### Juanell D. Lollar Wants To Be Floater Representative

"I take this opportunity of announcing my candidacy for the office of Floater Representative for Montgomery and Grenada Counties. I certainly appreciate the confidence of many friends who have solocited me to seek this important office in our State Government.

I am thirty-four years old and have lived my entire life in Montgomery County. I am married and have two children I am a member of Kilmichael Baptist Church. I am a graduate of Kilmichael High School and have had approximately two years of college work.

I am a veteran of World War Two with thirty nine months in service. Since returning from the Armed Service in December 1945, I have been associated with my father and uncle in business in Kilmichael, Miss.

My life long associates and friends have been farmers and small business people. I think I understand the problems and the needs of the average citizen in Montgomery and Grenada Counties. And if elected to this important office it shall be my sole purpose to serve the best interests of all the people. I shall not be dominated by any selfish group or faction.

I believe very strongly in Southern traditions and will do everything with in my power in the Legislature to maintain and protect the Southern way of life.

During the course of the campaign I shall endeaver to see as many of you as I possibly can and present my views. If I do not have the privilege of seeing each of you please accept this as my personal appeal that I earnestly solicit the vote and influence of each of you and if Elected I shall render the best service to the people of Montgomery and Grenada Counties that lies within my power."

### Miss Mary Laurence Dies In Bowling Green, Ky.

Old friends in Grenada will regret to learn of the death Sunday, March 20, of Miss Mary Walthall Laurence in Bowling Green, Kentucky.

A native of Grenada, she lived most of her life in Bowling Green, where she was buried Tuesday of this week.

A niece of the late Mrs. Cora Griffis, the deceased is survived by several cousins, Mesdames Tom Meek, Ben McElwrath and Pat Mullen of Grenada, and Mrs. Tom Fields of Tupelo, and Mrs. Anna Leal Carter of Orlando, Fla., also Mr. Robert Wynn of Boston.

Mr. T. H. Meek of Grenada attended the funeral Tuesday.

Miss Bess Sharp of Monroe, La. who became ill with a cold while visiting here in the R. W. Sharp home, left for Monroe last week end to resume her duties. She was here two weeks.

### McHenry Allison Announces For Sheriff

**To The People of Grenada County:**

For the second time, I am placing my name before you as a candidate for Sheriff of Grenada County. As most of you know, I was a candidate for this office four years ago. I led the ticket in the first primary and was defeated by less than one hundred votes in the second primary.

I want to take this opportunity to thank those who supported me in my last race, and to say that I have no ill feeling whatsoever toward those who did not see fit to vote for me.

I am well aware of the responsibilities of the Sheriff's office. The Sheriff is charged with collecting the County's taxes, with enforcing the laws, and with the sacred duty of protecting the liberties, the property and the lives of the people of his County. I repeat the promise I made to you four years ago, which is as follows: "If elected I will give you the kind of law enforcement the honest and law abiding people of Grenada County have a right to expect and at the same time will see that every individual with whom I deal is accorded his fundemental rights."

I am forty-three years fo age, a native-born citizen of Grenada County, a veteran of World War II, a Mason and Shriner, and a member of the American Legion.

I will sincerely appreciate your vote and support, and if elected will repay you with honest and efficient service.

Sincerely yours,
McHenry Allison

### Fred Rounsaville Announces For Supervisor - Beat 3

Just when things looked to be thinning down Tuesday morning, F. C. "Fred" Rounsaville of Beat Three dropped into the office, told his tale and paid his regular stud fee and now, alongside that of Albert Clark, has his name in the announcement column.

He has supervisor blood in his veins apparently as he is of the same breed as the late Cousin Ira Rounsaville and of Inman Rounsaville, now seeking a similar post in Beat One.

He seems like a right nice kind of fellow who lives where the late Spurgeon Burt used to live, that is near the Provine Store. He is 38, is married and has a wife and a couple of little kids and is a veteran of World War II.

He is well acquainted with the folks where he has lived so long and appears to know just what he wants to do up there, should the folks favor him with their suffrage. Not knowing too much about the aspirant, we will take the safe course by invoking for him the kindly consideration of the people of the pint-sized beat when they talk to the Lord prior to going to the polls in August.

### Eastview Subdivision Is Becoming Reality

Fifty-seven houses (2 and 3 bedrooms), with city water, hardwood floor, natural gas, atuomatic water heaters, tile baths, at least 3000 square feet to each lot, facilities for city sewerage and all other modern outlets will constitute the housing development to be built and sold by Percival & Percival, the "on the ball" realestate men of Grenada, shortly.

To be known as The Eastview Subdivision, it is located just south of No. 8 Highway, and only a few hunred yards east of the No. 8 overhead bridge spanning the main line of the I. C. Railroad.

C. W. Arneson and Milt Percival are "daddies" of this scheme.

a little daughter, Jan Deliese, on March 11th for Mr. and Mrs. Conrad Welker of Natchez. The baby is their second child.

The paternal grandparents, Mr. and Mrs. L. C. Welker live in Grenada.

Mrs. Dawson Winter of San Francisco was the guest of Mrs. L. J. Doak last Thursday. Mrs. Winter, the former Miss Anelise Roane of Grenada, plans ot return to Jackson, Miss. tonight at Eye, Ear, Nose and Throat Clinic in Memphis.

### Extremely Heavy Rain Fell Here Monday

Approximately 5 inches of rain fell in this vicinity Sunday night and most of Monday of this week.

Bogue Creek rose rapidly and its rapid rise caused the loss of 20 odd head of cattle to Matt Cooley whose farm an pasture are alongside the rising creek.

Bogue backed up and made a sea of water in the vicinity of the spillway below the dam.

Robert Shaw's new plant under construction was threatened.

The dam along Pettycocowa Creek was busted near Avalon, causing No. 7 to be closed.

Much of the Jim Weeks place north of the river was under water.

Much of old No. 8 highway from Gibbs Creek to old Graysport was under water.

The rain put a serious crimp in fishing here.

Midshipman James W. Smith (left) of Grenada, Miss., pauses with Cadet R. L. Curl, of Chanute, Kan., beside a Civil War memorial to Regular Army soldiers at the U. S. Military Academy during a recent visit of 120 midshipmen from the Naval Academy. A similar number of cadets went to Annapolis under an exchange-visit plan to promote cooperation among future officers of the armed forces. Smith is the son of Richard M. Smith, Star Route 1, Grenada.

"I won the prize with my gas kitchen and my gas cooking"

I walked off with two club prizes this year . . . one for my smart kitchen remodeling that centers around my new, automatic *gas* range.

Another prize was for my baking. *Gas* deserves a lot of credit here, too. *Gas* is so easy to control, gives the same even temperature through the entire baking period.

And, *only a gas oven bakes with moist heat*— keeps foods wrapped in moisture while they bake. No wonder I get perfect results always—with *gas*.

# Town Talk

BY FED ROBINSON

Mr. Warner V. Horton, Age 87, lifelong resident of Grenada County tells of an interesting experience in a letter to his relatives in our town. He says in 1892 he worked with a man on a farm whom he borrowed $2.50 and the man left the community and was not heard from since. But uncle Warner got to thinking about oweing that $2.50 and started writing letters to various people over the state in an effort to locate the man and found him living in Coldwater, Mississippi. So in reply the long lost friend said "you just forget about the $2.50 because having a letter from you after all these 62 years is worth more than money." But uncle Warner - being a Horton - felt the debt should be paid so he sent his check to the man for $10.00 as principal and interest.

I plan to tell that little story to my Sunday School department in that five minutes we use each Sunday morning to relate stories of "Christianity in action" because who else but a christian would bother to hunt out some one to discharge an obligation of 63 years standing?

Heard another story recently about a father who had his young son to drive a nail into a post every time he had done something evil, and to draw out a nail every time he had accomplished something good. Well, the boy came to enjoy drawing out those "nails of evil" but what worried him was he couldn't draw out the holes the nails had made and there they were staring at him . . . little holes in a post to indicate times when he had done a wrong. Well, many of us finally face up to the better way of life and try to get something done for good before its too late, but always and forever the little scars of evil, many of which are known only to ourselves, remain like the holes in the post where our words and deeds have been recorded.

**If you are inclined to make fun of Noah, Ark., don't forget there are other towns with crazy names: Ash, Kan.; Carpet, Tex.; Mount, Wash.; Ogg, Ga.; Odear, Me.; Shoo, Fla.; Kay, O.; Houdy, Miss.; Fiver, Tenn.**

We have been told that more women will criticize their husbands when talking with other women than will men criticize their wives when talking to other men. Well, I don't know for sure, but it is the truth a man will very very seldom lowrate his wife before other men because of one thing at least - the man doesn't want other men to know when things aren't going smoothly at home - and to mention any marital difficulty tends to show the man is not master of the situation. Anyway, here is a quote about a man which his wife should be happy to hear about. "A friend of Rufus Choate once asked Rufus if you were not who you are, who would you rather be?" Without a moment's hesitation the brilliant lawyer replied "I'd rather be Mrs. Choate's 2nd husband."

Life insurance companies paid $57.000,000 in death benefits on claims resulting from motor vehicle accidents during the first nine months of 1954. These benefits were covered by 29,000 policies. This was an increase of $2.000,000 and 1,000 in number of policies over the same period in 1953. What a load of heartbreaks, what a load of waste in human life. The money is only money, but count the loss suffered in those thousands of homes . . . fathers, mothers, children —Fed.

# SEEN, HEARD & TOLD BY THE EDITOR

Jim Moss, the quality builder, paid his annual dues Saturday. We got Moss et al to do some concrete work for us recently, never asked him how much it would cost, finally got a bill, then paid him. Moss et al gave us a good, tight job and the bill was reasonable.

In our candidate deal, each candidate gets 500 printed cards. Just looked at the pile of cards. If you have not yet got yours, the cards are probably ready for you. Come, get 'em.

Albert Clark told me that, instead of white washing the privies of the folks in Beat 3, he would probably use white creosoted paint on them.

For a while, there was the rumor that Pop Mayhan was showing signs of running for office. Maybe Pop is so busy fishing that he has not got to politics yet.

Among the many seen politicking and giving out cards Saturday were Tom King, Frank Morrison, Harold Carpenter and Red Thompson.

I may have been wrong but, at one time, I thought McCune Talbert was showing heavy signs.

I told Bardy Fox of Beat 5 and Red Taylor of Beat 4 that, if either wanted to amend his promises to the people about giving his salary to the churches, etc. like Henry Dunn did, I would put the promise in the paper without further charge.

Arthritis remedy: take the juice of one fresh orange and mix in a tablespoon full of cod liver oil and take every night. I am not guaranteeing that remedy which was given me by Mrs. Jake Whitaker, but it helped her a heap.

After Mrs. Preach Thomas of Coffeyville took out a subscription I gave that remedy to her and I hope it helps her a heap like it did me.

There's no Reckless Driving on this Super Highway!

(How travel for both freight and passengers is made safer than ever by the Illinois Central)

All the hazards of ordinary highway travel are guarded against by the Illinois Central. Both freight and passengers are protected against many hazards, including bad weather, mechanical trouble and even human error.

COLOR LIGHT SIGNALS

These signals tell when to proceed, when to slow down, when to stop. They "see" over the horizon and around curves, even in bad weather and at night.

SPEED LIMITS AND OPERATING RULES

These govern all train crews. Speeds are set for straight track, curves and other conditions. Rules cover all duties, such as sounding whistles for crossings and protecting the rear of trains when they stop.

SCHEDULES AND TRAIN ORDERS

These control all trains. Dispatchers use telephone, telegraph, radio and Centralized Traffic Control systems. Orders are written for engine and train crews.

CHECKS ON EQUIPMENT

Equipment is checked before and frequently during trips. When trains pass, each crew checks the other train. Passing trains are also looked over by agents and tower men.

CHECKS ON TRACKS

Track workers do this constantly. There are also special rail inspection cars with devices to find flaws no eye can see.

CHECKS ON OPERATION

Responsible officers constantly check train crews and other employes to make sure safety rules are obeyed.

These safeguards are a few of many that contribute to the safe, dependable and economical service that the Illinois Central renders to its friends and neighbors throughout Mid-America.

## The Living World

**Lesson for March 27, 1955**

IT SHOULDN'T seem singular that we are all born plural. We can't be born at all without the consent of two people we never saw before, and we can't be legally born without the consent of a great many more. We live in a world of people, by the help of many people. We cannot achieve health, wealth or happiness all by ourselves. And when we die the reason why we are not missed very long is that there are so many other people ready to take our place. Now the Christian like all other men lives in a world of men. His religion ought to give him some clue, at least, as to how he should live in this human world, this immense complex wheels-within-wheels thing we call Society. Is the right Christian thing to do to run away from the world and hide? Hermits have tried it. Is it the right Christian thing to do to adopt the slogan, "If you can't lick 'em, jine 'em"? Shall Christians just accept the world and its ways? Worldly "Christians" have tried that.

Dr. Foreman

### Salt and Light

But neither the Christian hermit nor the "worldly Christian" has helped the world. The world is no better for either of them, and on the other hand both hermit and worldling have ended by being no better than a caricature of a true Christian. The Christian's relation to the world around him . . . wait just a minute. We are going too fast, aren't we? "The world"—what do we mean by that? For the purposes of these present thoughts, the "world" means all the realms and ramifications of such variegated human arrangements as sports, politics, education, business, industry, agriculture, international affairs; all human institutions and relationships on a large scale or small. The "world" here means human beings, not in separate capsules but tied in innumerable ways to one another, affecting one another, inseparable from birth to death. The Christian's relation to this world is not like that of a pin stuck into a pin-cushion. The world is not merely the place where he has to be. Jesus put it into those two little thumb-nail parables of Salt and Light. The Christian is to be different, to be separate; but not as a pin is different from its cushion. The pin does nothing whatever for the cushion; but salt and light do something, something valuable and needed, to whatever it is with which they make contact. Christians are expected to apply themselves and their Christianity to every relationship of life—that's a dull way to put it, but doing it is never dull.

### Love Is Concern

Jesus and Paul both made it clear that the one law of life that sums up all other laws is Love. Not romantic love, not sloppy slippery sentimentality, but genuine heart-concern, intelligent concern, for the welfare of others. We all know that this is the law that transforms family life from a kind of jungle, or a cage at best, into something very close to heaven. We haven't all discovered that this is the law that can transform public life, yes, politics, business, all the rest of it. It's harder to do out there because the larger the circles the less co-operation you are going to find. Nevertheless, it is a fact that civilizations, nations, businesses, that have learned something from the Christian Gospel are better for the people that live there and work there than where Christianity has never had a chance. Yet ours is still a pagan civilization. When a manufacturer writes that the principle of his business has always been to make money for the stockholders, he has not got hold of the Christian idea. When an industrialist says that his business is making citizens and he is using a cotton mill for that purpose, he has got hold of the Christian idea.

### To the End of Time

But suppose the H-bomb gets us all? Suppose, for lack of enough strength Christians, the hate-all, grab-all way of the world has brought us to the edge of doom, what can Christians do? Sit down and wait for the end? The Apostle Peter did not think so. Neither did any other early Christian leader. They felt themselves in a world on fire—and indeed so it was.

### Conservation - Land Use Emphasis Week — By Rex H. Blue

The recent severe dust storms in the Great Plains and heavy floods in the Ohio Valley have resulted in losses running into many millions of dollars. Distastrous losses caused by these extremes are grim reminders of what can happen in any section of our country when land is uncovered and misused. Last week, Grenada County folk witnessed a typical example of what damage uncontroled runoff can cause.

This week (March 20-26) has been designated throughout Mississippi by District Soil Conservation Commissioners as "Conservation-Land Use Emphasis Week." The week has been set aside so that farmers, businessmen, professional men and others may stop to take stock of our basic natural resources upon which we all depend for a livelihood.

Grenada County is blessed with good farm land, forest land, water, and wildlife habitat, as well as a good climate and rainfall.

A study of records written in the land and in our forest reveal that in many instances in the past, man has been guilty of misusing these gifts of nature. Steep slopes have been cultivated. Forest lands have been overcut, burned or grazed. Pastures have been overgrazed. Mismanagement and misuse have resulted in rapid runoff causing severe erosion, silting of streams and floods.

Soil and Water Conservation, and proper land use is a matter of vital importance to every individual regardless of occupation. The strength of our nation and our way of life depend directly upon our ability to conserve our natural resources and to keep
